

# Coastal and River Workshops

Norfolk Wildlife Trust has worked with Norfolk Coast Partnership to create a range of wildlife workshops for two projects which are helping improve habitats on the coast and in two river catchments.

Workshops are **free**, but **booking** is **essential**.

## To book

 Online via the NWT website or 01603 598333

## Climate change is all around us

-  Monday 30 May
-  7 to 9pm
-  NWT Cley Marshes

Human-induced climate change is already a reality for wildlife and people in the modern world. Learn about its causes and consequences and what we can do.

## Grassland, verges, wildlife corridors and stepping stones

-  Saturday 11 June
-  10am to 1pm
-  Weybourne

Conservationists are more than ever aware of the crucial importance of connection through the landscape for our wildlife. As well as looking at grassland habitat in North Norfolk, and its management, this workshop explores mini meadows and verges as stepping stones for grassland wildlife.

## Creating Wildflower Areas

-  Thursday 23 June
-  2 to 5pm
-  Sedgeford

Anyone with an open patch of ground can improve it for wildlife by making a wildflower meadow. This workshop covers the best species for wildlife, how to source them, and the simple rules for making a successful wildflower meadow.
